Summary

Computer Science undergraduate with strong knowledge in Data Structures, Algorithms, OOP, and DBMS. Skilled in full-stack development using Java, Spring Boot, React, and MySQL, with specialization in Cybersecurity. Proficient in Git, Visual Studio Code, and Eclipse IDE. Certified in cloud technologies including Microsoft Azure and Oracle Cloud Infrastructure, with a strong interest in software engineering, security, and problem-solving.

Education

KL University , B.Tech in Computer Science and Engineering CGPA: 9.29	2023-2027
Sri Sarada , Intermediate Percentage: 81.2%	2021-2023

Skills

Specialization: CyberSecurity
Languages: Java, Python, C, Data Base
Technologies: Spring Boot, react.js, mysql
Tools: Git, VS Code, Eclipse
Core Areas: OOP, Full Stack Development, DBMS

Projects

Cozy Stay - Hotel Management Full Stack Project

Designed and developed a full-stack Hotel Booking Application that allows users to explore hotels, check availability, register/login securely, and confirm bookings through a dynamic and responsive interface built with React.js. Integrated backend REST APIs using Spring Boot and MySQL for authentication, hotel data management, and booking processing. Enhanced an admin panel to efficiently manage properties, users, and reservations, and deployed the application using Docker containers, Kubernetes orchestration, and Ansible automation to ensure scalability, reliability, and smooth production deployment.

Employee Payroll

The Employee Payroll Management System is a full-stack web application developed using React.js, Spring Boot, and MySQL to automate payroll management. It enables administrators to manage employee records, departments, attendance, and salary details through a secure dashboard. The system calculates payroll accurately and maintains payment records while reducing manual work and errors. Employees can securely access their profile and payroll information through role-based authentication. This project improves organizational efficiency and demonstrates practical skills in full-stack development, REST APIs, and database management.

Certifications

Azure Fundamentals AZ-900	2026
Azure AI Engineer Associate	2026
Oracle Cloud Infrastructure Certified Architect Associate	2025
Multicloud Network Associate	2025
